## PLIERS

A pair of plier is one thing you will find in almost 'every body's toolbox, workshop and home. For the most people the term 'pliers' means combination pliers - infinitely useful for gripping, twisting, turning, stripping, cutting and many other odd jobs for which they were never designed, but all pliers are designed to perform specific functions and the NVR range covers just about all of them.

### TYPES OF HEAD FINISH

(A) Chrome Plated, Mirror Polished

A

(B) Polished Finish

B

(C) Black Finish

C

### TYPE OF GRIP

Standard Sleeve

Used for general purpose gripping in distinctive colors.

Heavy Duty Sleeve

Used for heavy duty jobs providing maximum grip and comfort.

Valvet Dip Insulation

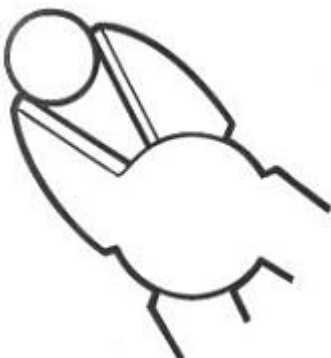

Designed to fit comfortably into the hands and ensures firm grip.

Cushion Dip Insulation

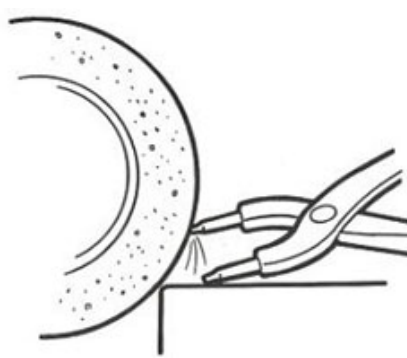

Added comfort in use. Low slip cushion grip dip insulation available in different colors.

### SAFETY MEASURES

Never exceed the cutting capacity.

Never grind or alter the shape of Plier.

Always keep pliers clean, free from debris and lightly oiled.
